

PRESS RELEASE

IB Polsoft, to distribute Galitt Test Tools in Poland

Boulogne (France), July 4th, 2016

IB Polsoft announced its alliance with Galitt to offer in Poland the whole range of test software developed by Galitt, KaNest[®] simulators range and VisuCard[®] products. The distribution agreement allows IB Polsoft to sell and support Galitt's simulation testing tools to facilitate test and certification of any transactional systems, such as smartcards, POS terminals, mobiles, payment networks and hosts... and also the control and validation of personalization of any contact and contactless cards.

Kajetan Wlazło, CEO of IB Polsoft, declared: "By providing specialized solutions in the area of banking and large financial institutions, we have concluded that Galitt's testing tools are an invaluable opportunity for us to strengthen our position in this ever growing market. We hope that through our cooperation with Galitt we will reach new customers in this demanding market. The sale of the KaNest[®] simulators range and VisuCard[®] products will be a priority for us in the next few months. In addition to sales activities, our company will also support the stages of implementation and integration with our customer's systems. "

François Inglebert, Marketing Director - Testing Solutions at Galitt, stated: "We believe that IB Polsoft will leverage the use of our tools on transactional and payment systems in Poland, this strong dynamic country, due to its business knowledge of these markets and its recognized technical expertise."

KaNest[®] simulators provide a unique customizable test tool to validate messages and interfaces between transactional systems, including card processing systems and stock exchanges. The degree of customization and flexibility provided by KaNest[®] leads the test tool marketplace. KaNest[®] ICC simulators aim at testing smartcard and accepting devices, and have been recognized by the major International Card Schemes (i.e.: EMVCo, American Express, Discover Financial Services, MasterCard, Visa...) as a tool for certification purposes. The KaNest[®]-File simulators allows users to test and validate file processing. It secures that batch programs process files in accordance with given formats. VisuCard[®] products are a range of personalization validation tools supporting contact and contactless cards, implementing test plans provided by international brands and qualified by the major ones.

About IB Polsoft (www.ibpolsoft.pl) - IB Polsoft is a company with over 20 years of experience in the market of IT services. We specialize in design, development, implementation and maintenance of information systems. We have an experienced, well-integrated and flexible team. We use a number of cutting-edge technologies. We provide our customers with the highest quality and reliability. Our software applications are multi-layered with distributed architecture, based inter alia on the Java EE platform, working with relational database systems (Oracle, MySQL, PostgreSQL etc.) and the presentation layer using both desktop- and browser-based solutions. We have experience in creating systems for different sectors, especially for the banking-financial sector, insurance and public administration.
